Seattle	\$112.85

--Austin is the only city to offer their level of service (64 or 96 gal. trash cart serviced 1x per week with 96 gal. recycling cart serviced every-other-week) on the rate comparison sheet provided by ARR of eleven cities.

--The City of Austin package of services represents the least amount of services supplied to any city chosen for comparison by ARR on the rate comparison sheet.

--All other cities chosen by ARR for comparison offer either expanded recycling services (1x per week) or green waste cart services (1x per week) or green waste and food waste composting cart services (1x per week) or a combination of both recycling (1x per week) or green waste/food waste services (1x per week).

--Tucson was erroneously shown at \$32.00 per month in the ARR comparison. The correct rate is \$16.00 per month.
